### The Steed of Garuda, King of Birds:

An Instruction for Ascending to the Realm of Bliss through the practice of the White Umbrella

वःम्.चै..बे..भं.च.ला

Namo Śhākyamunaye!

This intensely fierce goddess is an aspect of Pāṇḍarāvasinī, the supreme consort of Amitāyus. Engaging in her practice will lead to rebirth in the pure land of Dewachen, the place of great bliss. She emerged from the Buddha's crown to subdue the host of male and female gods and their retinue, and her practice became a profound method for countering the forces of magic. The sūtra and dhāraṇī were named uṣhnīṣhā because they originated from the Buddha's crown rather than his spoken words. Despite being a kriyā-tantra, numerous mahasiddhas, such as Jetāri and Vajrāsana, have practiced it in the manner of the highest yoga tantra. Emulating their example would be the most convenient way to engage in this practice. This practice encompasses the authentic Nyingma traditions passed down by Garab Dorje and Mañjuśhrīmitra to Vimalamitra. It also includes the hidden termas of Guru Traktung Nakpo, an ocean of Indian sadhanas, and an abundance of Tibetan practices written by Tongwa Dönden, Wangchuk Dorjé, and others. This practice is both simple and profoundly blessed. Engaging in this practice is akin to wielding an invincible vajra sword capable of countering illnesses, negative forces, and magic. If you wish to reach Dewachen, this practice will take you there, soaring on the wings of the Garuḍa, King of Birds. Therefore, make this your daily practice.

हैश्राचमुःह्वैदःहेः ब्री । ह्वेदः ब्रियः र्वेदः र्यः हैश्राचमुः त्वायः द्वश्याः । प्युः क्वेद्रः स्वायः ह्विदः व्यायः ह्विद्रः स्वायः ह्विद्रः स्वयः ह्विद्रः स्वायः ह्विद्रः स्वयः ह्विद्रः स्वय

Āḥ—Phenomena are emptiness, inexpressible, transcending words and thoughts. In an instant, a white umbrella marked with **oṃ** transforms into the union of samaya- and wisdom being: myself appearing as Vajra Uṣḥnīṣḥā, the Mighty Defender, with a thousand heads. The two hundred white faces in front are charming. The two hundred yellow faces on the right are fearsome and wild. The two hundred red faces behind are awesome and stern. The two hundred green faces on the left are compassionate and calm. The two hundred blue faces on top are awesome and fierce. Each face has three eyes and is marked with a vajra.

אָה - התופעות הן ריקוּת, ללא תיאור, מעבר למילים ומחשבות.

בָּן-רגע [עולה] מטריה לבנה מסומנת ב-**אוֹם**, הופכת לאיחוד ישויות הסמאיה והחוכמה: אני מופיעה כ-וואג׳רה אוּשְנישֶה *המגינה האדירה,* בעלת אלף ראשים: בחזית, 200 לבנים, מהפנטים ביופיים; לימין, 200 צהובים, פראיים ומאיימים; בעורף, 200 אדומים, עוצמתיים בעלת אלף ראשים: בחזית, 200 לבנים, מהפנטים ביופיים; מעל, 200 כחולים, זועמים ומטילי-מורא. כל ראש עם שלוש עיניים ומסומן ב-וואג׳רה!.

My complexion is white, and I have a trillion eyes. My eyes are alert, intense, and electric. As my gaze sweeps to the side, my vision encompasses infinite space. My five hundred right and left hands each brandish a blazing sword that slices through thoughts. My five hundred right legs are extended, shattering all sources of fear. With my five hundred left legs bent, I am stomping out all hostile forces.

גופי לבן; טריליון עיניי פקוחות לרווחה, נוקבות ומחשמלות; מבטי רחב , נע לצדדים, חובק חלל אינסופי.

500 ידיי הימניות ו-500 השמאליות מניפות חרבות בוערות, החותכות כל מחשבה.

500 רגליי הימניות מתוחות, מרסקות את כל מקורות הפחד; 500 רגליי השמאליות כפופות, דורסות כל כוח עוין.

ו ע״פ קנפו טנזין מדובר באיכות העוצמה שלא ניתן להשמידה ולא ואג׳רה פיזית. כך גם במקומות נוספים היכן שמוזכר ״וואג׳רה״.

# यश्चरत्रेशः में यात्रेयः त्रेत्रः वेरायन्य । विश्व ह्यायः याव्य विष्ये मुक्षः न्यायः यात्रः यात्रः विष्यः विषयः यात्रः विषयः विषयः

My crown is adorned with seventy million buddhas. My top knot is a resplendent tower of seven turning umbrellas stacked on each other. My pores emit the light of primordial wisdom. Clad in heavenly robes, I am adorned with peaceful and wrathful ornaments.

כתרי עטור בשבעים מיליון בודהות. מעל קודקודי מתנשא מגדל מרהיב של שבע מטריות חגות זו מעל זו. כל נקבוביות גופי מפיצות אור חוכמה ראשונית. אני עטויה בגלימות שמיימיות ומעוטרת בעדיים שלווים וזועמים.

At my forehead is Vairochana with a white **oṃ** at his heart. At my throat is Amitābha with a red **āḥ** at his heart. At my lower heart is Vajrasattva with a blue **hūṃ** at his heart. In the center of my heart on a moon is a white **oṃ**, surrounded by the mantra string. Its light dispels all obscurations and increases power.

במצחי ואיְרוצ׳אנה, בליבו **אוֹם** ב[צבע] לבן; בגרוני אמיטבהא, בליבו אָה באדום; בתחתית ליבי ואג׳רהסאטווה, בליבו הוּם כחול; במרכז ליבי, על גבי דיסקת ירח אוֹם לבנה מוקפת במנטרה. אורה מסלק כל עכירות ומגביר כוח ועוצמה.

चुेर् च्रथमः १८८१ मुंच्या चर्चे । भ्राप्तः भ्राप्तः च्या । भ्राप्तः च्या च्या । भ्रापतः च्या । भ्राप्तः च्या । भ्राप्तः च्या । भ्राप्तः च्या । भ्रापतः च

My upper teeth are the ten male wrathful ones, and my lower teeth are their ten female consorts. A mass of fire encircles my mouth; my tongue is a sharp sword. The sun and moon reside in my throat. My body, enshrouded in flames, reduces all harm-doers to ash.

שיניי העליונות הן עשרת הזכרים הזועמים והתחתונות, עשר בנות-זוגם. סביב פי מתפתלות שלהבות יוקדות; לשוני תער חד; בגרוני השמש והירח; להבות אש פורצות מגופי, שורפות ומכלות לאפר את כל מי שבא להרע.

त्त्रीत् अत्यास्य म्यास्य विद्वारम् । प्रमायाः स्वस्य स्वास्य स्वस्य स्य स्वस्य स्यस्य स्वस्य स्वस्

Merely engaging in this visualization is sufficient, even if its depths are not fully realized. Guru Traktung Nakpo taught that through this practice, one can become liberated from oppression, curses, and similar afflictions. Reciting it aloud is crucial to its efficacy.

מספיק יהיה לתרגל את ההדמיה גם אם לא ירדנו לסוף עומקה. גורו תְראקְטוּנג נאגְפּוֹ לימד כי דרך תרגול זה נוכל להשתחרר מדיכוי, כשפים וייסורים דומים. כדי להשיג זאת, חיוני לדקלם בקול רם.

**Hūṃ!** Vajra Uṣhnīṣhā, Mighty Defender, with a thousand hands, a thousand heads, and a trillion eyes, known as the Fierce and Invincible Vajra, ruling the three planes of existence with an Infinite Vajra—I beseech you, protect our loved ones, wealth, and companions, day and night!

הום, ואג׳רה אושנישה מגינה אדירה, עם 1000 ידיים, 1000 ראשים וטריליון עיניים, נודעת כ-וואג׳רה פראית רבת-עוצמה ובלתי מנוצחת, שולטת בשלושת מישורי הקיום עם ואג׳רה אין סופית - אנא, הגני על יקירנו, חברנו ועושרנו, יומם וליל!

Ideally, recite this seven times; if not, repeat it five times for a moderate count, or at least three times. After this, recite the essence and quintessence mantras as often as possible.

The essence mantra:

om sarva tathagata uṣhṇiṣha hūm phat hūm mama hūm ni svāhā

The quintessence mantra:

#### om mama hūm ni svāhā

**Hūṃ**. Homage and praise to White Umbrella, Queen of Awareness, the powerful goddess born from the crown of the Protector, the Lion of Shākyas!

May the merit gained through this practice lead to our miraculous birth in Dewachen upon departing from this impure form! Once there, may we traverse the ten bhūmis and send forth emanations in all the ten directions for the benefit of all beings!

כאשר נעזוב גוף זה שאינו טהור, לו חסד הטוּב שנצבר בתרגול יוביל אותנו ללידה פָּלאית בדַוָּוה צֵ׳ן! עם היוולדנו שם, לו נחצה את עשר הרמות, ונשלח התגלמויות לכל עשרת הכיוונים כדי להיטיב עם כל היצורים.

Then, look at the meditator's mind with crisp awareness. Rest in the clear presence that emerges when nothing is seen. If you cannot practice this daily, recite the two short mantras while engaging in your daily activities.

כעת, הביטו בתודעת המודט עם מודעות חדה ובהירה. נוחו בצלילות העולה כאשר דבר אינו נראָה. אם אין באפשרותכם לתרגל זאת באופן יומיומי, המשיכו לדקלם את שתי המנטרות הקצרות לאורך כל פעילות יומכם.

Alas! What a weight we carry, lacking merit from lives in the past, as karmic debts demand their due! We are trapped by spells from Buddhists and non-Buddhists. Illness and adversity cling to us persistently. Although we are aware of death and wish to follow Dharma, we lack the fortune to align our actions with it. The time of death is uncertain, but death itself is definite. Alas! We do not know where we will go after death, but wherever we are born in the six realms, great suffering awaits us. Anyone considering this, take these teachings to heart and always remember them!

च्यानक्ष्मांजिटां मुस्टां मु

In the past, the Dharma King Trisong Detsen summoned a hundred scholars from various lands to translate the Words of the Buddha and their commentaries into Tibetan. Among the various teachings, this practice was considered unparalleled in its ability to protect the King and ward off sorcerers. When carried out, this practice protected the Kind from all harm caused by Indian heretics, Hashang and his Chinese disciples, and the Tibetan bönpos. Later, when the Oriat Mongols swept into Tibet, attacking the Karmapa's teachings, the continuous application of this practice spared the Tibetan people from disaster. Thus, there is no better method than this to counter magic.

Furthermore, by practicing this recitation, which embodies the essence of the tantras, you will receive the blessings and merit of infinite buddhas. The five worst sins that have immediate consequences, along with all karmic obscurations, will be purified and cleansed. Your vitality and merit will grow, and you will be reborn in Dewachen once you pass from this life.

Thus, the adversities of this existence will be dispelled in future births, and you will dwell in pure lands. As a result, perfect buddhahood, the irreversible and ultimate goal, will be within your reach.

I, Rāga Asya, have compiled this practice by integrating the root text and pith instructions to benefit myself and others. It was transcribed by Pema Tarchin. I confess any errors, such as misspelled mantras, before those endowed with the eye of wisdom. May the merit gained through this practice pacify the obstacles and misfortunes of all beings, guiding them to rebirth in Dewachen! Once there, may they fulfill the immeasurable benefit of others! Sarva Mangalam.
